ADAPTIVE OVERSIGHT AND INSTANT INSIGHTS WITH OOMNIA CTMS

Navigate clinical trial complexities with confidence and precision

oomnia integrates CTMS features designed to optimize your clinical trial management. oomnia CTMS supports you in the planning, execution, monitoring, and reporting of clinical studies. Gain unparalleled insights and comprehensive oversight across your clinical trials.

- ✓ All data in one place
- ✓ Easy data management and tracking
- ✓ Adverse event monitoring
- ✓ Efficient budgeting

BENEFITS OF OUR UNIFIED CTMS

Discover the advantages of streamlined trial management

ALL DATA IN ONE PLACE

oomnia features a clear and comprehensive overview of participant, investigational site, and trial information. All essential components – eCRF, RTSM, budgeting, eTMF, and monitoring – are conveniently accessible with a single login.

EASY USER MANAGEMENT

Information from contact lists is quickly accessible, and investigational sites and investigators can be easily selected. Study staff information can be prepopulated from existing profiles within the system.

INTERACTIVE OVERVIEW

oomnia CTMS allows an easy oversight of the study with real-time data feeds and downloadable reports. Metrics include for example adverse event information, protocol deviations, or source data verification progress.

ERROR REDUCTION

All data and analytics are in one place, easily accessible, and automated. oomnia can pull data from various forms and auto populate, reducing errors from manual input and reconciliation.

TIME SAVINGS

Monitoring visits can be scheduled directly through oomnia CTMS, providing rapid access to information from contact lists. The tool allows for the efficient creation of budgets prior to the commencement of a study.

COST SAVINGS

Budgeting with CTMS allows sponsors to see how their funds are being used and if they could be used more efficiently.

ADVANCED FEATURES OF OOMNIA CTMS

Unlock the full potential of your clinical trials

STUDY MILESTONE AND ENROLLMENT MANAGEMENT

FEATURES	DESCRIPTION
Key milestone and enrollment dates tracking	- Define key milestones and schedule planned completion - Track timelines and make adjustments as required
Recruitment information	Track participant disposition by site, country, and trial, directly from the EDC

COMPREHENSIVE FINANCE MANAGEMENT
